

RIN RAEUBER

FRONTEND ENGINEER

+49 15125376201 • mail@rinrae.com • rinrae.com
Karl Marx Str 71, 12043 Berlin, Germany

EDUCATION

Bachelor of Computer Science
University of Applied Sciences
Dortmund
2009 - 2013

TECHNOLOGIES

- Javascript (ES6) & TypeScript
- React & Redux
- GraphQL
- Node

METHODS

- Product mindset
- Agile methodologies
- Working in remotely distributed teams

PROFILE

I create delightful user experiences that are backed by solid maintainable code. In my work, I am looking to have meaningful impact on products by owning features and improving tools and processes. I have over five years of experience working in distributed teams and collaborating asynchronously on features on a daily basis.

I enjoy organizing people and projects and want to develop these strengths further.

WORK EXPERIENCE

FRONTEND ENGINEER (REACT)

Formstack • since 03.2021

Developed new features for a SaaS workflow automation platform. Converted large parts of the existing application from Angular to React. Contributed to the UI component library.

FRONTEND ENGINEER (REACT)

HelpDocs • 08.2020 - 12.2020

First full-time engineer of an SaaS knowledge base platform. Built features for the WYSIWYG editor. Re-built the Stats dashboard. Supported moving the application from Semantic UI to Tailwind CSS.

FULL-STACK ENGINEER (REACT & NODE)

AIME Mentoring • 09.2018 - 07.2020

Built React applications with Node.js backends using TypeScript and GraphQL, including a presentation tool across Australian campuses as well as a recruiting platform for volunteers across the US, Australia and four African countries. Developed a UI component library with Styleguidist. Worked in a fully remote team across five timezones.

DEVELOPER (RAILS, JAVASCRIPT, ELIXIR)

bitcrowd GmbH • 04.2013 - 04.2017

Developed Rails applications for several clients using TDD. Built custom REST-APIs and integrated third-party APIs.
